## ***iMDsoft* and Dominion to cooperate in Spain**

### **Major technology provider to distribute MetaVision clinical information systems across Spain**

**Leiden, The Netherlands - March 22, 2010 - *iMDsoft*<sup>®</sup>**, a global leader in hospital-wide clinical information systems, and Dominion, a leading provider of technology solutions in Spain and Latin America, have announced an agreement whereby Dominion will distribute *iMDsoft*'s MetaVision<sup>®</sup> suite of solutions in Spain.

Dominion is Spain's third-largest domestic technology group with a large installed-base of healthcare clients. This partnership will complement Dominion's existing healthcare IT offerings with state-of-the-art clinical information systems for the perioperative, critical and acute care continuum.

The MetaVision Suite from *iMDsoft* includes fully-integrated tools for data collection, presentation, order management, reporting and analysis across the continuum of care. It promotes patient safety and enhances quality initiatives, cost containment, revenue capture, research, and compliance.

"*iMDsoft* is pleased to join forces with Dominion to offer our proven clinical information systems to hospitals in Spain", said Phyllis Gotlib, CEO of *iMDsoft*. "I am confident that Dominion's target client base will benefit from our advanced functionality and our focus on clinical, financial and operational results."

"The healthcare market in Spain makes intensive use of advanced IT. We are sure that the unique attributes of the MetaVision solution will offer significant benefits in clinical process automation, electronic documentation and decision support", said Roberto Rossello, COO of Dominion. "I'm confident that we can quickly translate these capabilities into better care and improved outcomes for our customers."

### **About *iMDsoft***

*iMDsoft* is a leading provider of Clinical Information Systems (CIS) for preoperative, critical and general care. The company's flagship family of solutions, the MetaVision Suite, was first implemented in 1999. It has since become a market leader, with implementations in a wide range of ICUs, ORs, and, recently, general wards. Major medical centers across the US, Europe, and Asia, including 4 of the top 10 hospitals in the US and 13 of the top 50 hospitals in Europe, use *iMDsoft*'s

technology to improve care quality, promote patient safety, enhance financial performance, support research and compliance, and achieve sustainable market leadership. To learn more, visit [www.imd-soft.com](http://www.imd-soft.com).

### **About Dominion**

Founded in 1999, Dominion is one of Spain's largest technology groups. The company has offices in Spain, Mexico, Brazil, Argentina, and Chile, with 2,000 employees worldwide. Dominion specializes in technology-based solutions for logistics, engineering, healthcare, and biotechnology. Its projects range in scope from major infrastructure initiatives in the field of telecommunications engineering, to IT development projects and implementations. The company seeks to offer a one-stop solution to its clients' technological needs, based on the philosophy that the mission of technology is to be the main stimulating element in the transformation to a digital and sustainable future.
