***iMDsoft* and iSOFT Announce Distribution Agreement**

Software supplier to distribute MetaVision clinical information systems in Germany

Leiden, The Netherlands – February 16, 2010 *iMDsoft*[®], a leading provider of clinical information systems for perioperative, critical, and acute care, and iSOFT Health, a leading supplier of software applications for the healthcare sector, have announced that iSOFT will begin distributing the MetaVision[®] Suite in Germany. iSOFT currently serves customers in 40 countries and is one of the world's largest healthcare information technology companies.

The agreement allows iSOFT to distribute the MetaVision suite of products, initially in Germany only. *iMDsoft*'s offerings will complement and enhance iSOFT's range of products with a dedicated solution for perioperative and critical care in the country.

The MetaVision Suite is designed to capture, document, analyze, report, and store the vast amount of patient-related data generated in critical care environments. MetaVision provides Clinical Decision Support, Computerized Physician Order Entry (CPOE) for medications, and quality-of-care reporting. The system has been shown to significantly improve patient safety, quality measures, and financial performance.

"iSOFT has a long history of offering innovative hospital-based data management solutions across the entire continuum of care. They share *iMDsoft*'s passion for improving the healthcare experience for both patients and healthcare professionals, making us natural partners," said Phyllis Gotlib, CEO of *iMDsoft*. "I believe that iSOFT has the reach and expertise to enable a wider network of customers in Germany to enjoy the proven benefits that MetaVision brings to users worldwide."

"We are very happy to announce this new partnership as the Metavision suite is particularly suited to the German market," said Reiner Niehaus, Manager and Sales Director at iSOFT Health. "The possibility to integrate a state-of-the-art PDMS into our product portfolio will help us to offer a wider span of solutions to our customers. This will enable us to address new markets in Germany and to support our clients to provide healthcare services of higher quality. *iMDsoft* is the ideal partner for us to expand our reach into the intensive medicine sector and therefore strengthen our position as one of the country's market leaders."

About *iMDsoft*

iMDsoft is a leading provider of Clinical Information Systems (CIS) for acute and general care. The company's flagship family of solutions, the MetaVision Suite, was first implemented in 1999. It has since become a market leader, with implementations in a wide range of ICUs, ORs, and, recently, general wards.

Major medical centers across the US, Europe, and Asia, including 4 of the top 10 hospitals in the US and 13 of the top 50 hospitals in Europe, use *iMDsoft*'s technology to improve care quality, promote patient safety, enhance financial performance, support research and compliance, and achieve sustainable market leadership. *iMDsoft* enjoys a 100% customer retention rate and a 100% implementation success rate as a result of the performance of MetaVision's specialized features and benefits. About iSOFT Health

iSOFT Group Limited (ASX: ISF) is the largest health information technology company listed on the Australian Securities Exchange, and among the world's biggest providers of advanced application solutions in modern healthcare economies. iSOFT works with healthcare professionals to design and build software applications that answer all of the difficult questions posed by today's healthcare delivery challenges. Our solutions act as a catalyst for change, supporting free exchange of critical information across diverse care settings and participating organisations.

Today, more than 13,000 provider organisations in over 40 countries use iSOFT's solutions to manage patient information and drive improvements in their core processes. The group's sustainable development is delivered through careful planning, in-depth analysis of the market, and anticipation of our clients' evolving requirements. Our business is driven by the collective talent, experience and commitment of more than 4,700 specialists in 19 countries worldwide, including more than 2,700 technology and development professionals. A global network of iSOFT subsidiaries, supported by an extensive partner network, provides substantial experience of national healthcare markets. As a result, we offer our clients comprehensive knowledge of local market requirements in terms of culture, language, working practices, regulation and organizational structure.
